From ARK: Survival Evolved Wiki and Mod:Ark Eternal This article is about content that is part of the Ark Eternal fashion. This content is only available if the mod is installed on a server or on a single player. Review edit when attached to the chest armor, the Eternal Glider suit allows you to sail through the air by double-pressing the jump, while gaining speed, running and diving! It does not consume durability and allows you to fly as long as you want. Credit goes to Promé for creating this. ARK ID for glider suit glider. From ARK: Evolved Wiki This article is about content exclusively available in the version on Steam, Xbox One, PS4, Epic Games. This creature, item or feature has not yet been released in the Nintendo Switch version. Glider Suit Skin is an armor introduced in the DLC Aberration and allows survivors to glide through the air. Using an edit skin suit glider can be attached to any piece of chest armor similar to the skin except Tek Chestpiece. The skin suit glider has no strength value of its own, so the suit itself will never break, but slipping with the suit does not wear on the strength of the chest armor to which it is attached. While in the air, the double-pressing of the jump button will put the player in slip mode, sliding forward, while losing only a small amount of height. Holding **T** Shift will allow you to control your step up or down to dive or climb, which greatly affects your speed. Pressing the jump button while sliding will switch the glider suit off. However, it can be turned on again when falling. Editing notes that hold the sprint button will allow you to control the height directed at the UP or DOWN mouse. Shifting-sprinting and running away from the cliff, unable to remove the finger from the change button will cause a sharp fall. Diving into the ground at any moderate speed with a Glider Suit will hurt your survivor. Be aware of the durability of wear on the chest armor when using a Glider Suit. If your chest armor breaks you will lose the ability to slide until your armor is repaired. Both durability and ease of repair should be considered when choosing breast armor for use with a glider. To remove the skin of the glider, hold the shift and drag the chest into your inventory. Wear durability can be very dangerous when using a Glider Suit on armor that already has passive runoff strength like Hazard Suit Armor or SCUBA Armor. The projectiles fired toward the glider suit the skin of the torso makes 3x its strength damaging, making it even more dangerous in PVP and some cases PvE. Unlike attaching to the engine, this skin does not require the use of gasoline or similar fuel. Walking from the edge, then sliding will put you at a set height, while falling is about the same speed as if you were flying Archaeopteryx. Lore edit! This page may contain a spoiler associated with the background ARK: Survival Evolved. If you want to experience the history of ingame, you don't keep reading on this page. In the knowledge, the gliders were used by Diana and futuristic survivors as a way to move quickly, as their Tek jetpacks stopped working after they crushed their ARK, causing its atmosphere to collapse. This item does not have a numerical id. Instead, you should use the element's GFI code to spawn the item. A list of all the caviar items can be found in our GFI code list. The GFI code for the glider suit is a glider. Click copy to copy the item ID to the clipboard. MOD ID: 1907054785 Here is a link to our Server Discord! (discord.gg) This mod aims to add all kinds of zol features to the Glider Suit app. Currently it does the following: There is a variant of the Glider Suit that is not attached as leather but is worn in a shield slot instead of a shield. Because of this, you can use breast skin along with a glider! It is manufactured in the player's inventory and requires that the glider suit be made. Glider Suits for Shield Slot have 50 durability, but can be improved if placed in loot drops, or when fashions such as station upgrades are used. Many config options are available. By default, gliders will behave like vanilla gliders. For GameUserSettings.ini: GlidersPlus DurabilityDrainFromGlidingMultiplier-1.0 SpeedMultiplier 1.0 CooldownMultiplier 1.1 1.0 1.0 TurnRadiusMultiplier-1.0 NoDurabilityDrainFromDamage-False DurabilityDrainFromGlidingMultiplier takes any value from 0.1 to 10. Installing it to -1 completely disables the drainage strength. SpeedMultiplier takes any value from 0.1 to 10. More to go whoosh. CooldownMultiplier takes any value from 0.1 to 10. Higher numbers mean it takes longer before you can use the glider again after the glider closes. TurnRadiusMultiplier takes any value from 0.1 to 10. Higher numbers mean that the turn takes longer. NoDurabilityDrainFromDamage, when dialed on True, makes it so that getting damaged no longer reduces the extra durability on your glider. The changes do not affect the Glider costumes created before the installation of this mod, and with this mod, the original Glider Suit engram is double-checked to the glider. If you wear multiple glider costumes at once, keep in mind that if you unequip one, the other will not be used until re-equipped. As in the vanilla ark, the Glider Suit engrams are limited to aberration. For Engram to be recognized outside of Aberration, you can use this confit in the Game.ini file. It automatically unlocks engrams for everyone at 62. EngramEntryAutoUnlocks (EngramClassNameEngramEntry\_GliderSuitPlus\_C,LevelToAutoUnlock-62) EngramEntryAutoUnlocks (EngramClassNameEngramEntry\_GliderShield\_C,LevelToAutoUnlock-62) To have a glider recipe without blue stones, you can use this confit in your Game.ini file. It has the same costs as usual, but uses crystal instead of blue blue !!! NOW WITH INI CONFIGURATIONS FOR SPEED, LOSS OF STRENGTH DURING SLIP, COOLING SLIP, SUPER TURN, SHAKE CAMERA, POST-PROCESS AND SOUND EFFECTS !!! Mod Id!1315694497 adds an additional item: Classic Skin Glider Era - Skin glider as it was up to 278.54 patch-requires training standard glider to unlock (0 EP) - Craftable in player inventory with standard resources: Shields DO NOT do 3x damage to the strength of the breast pieces while this glider is attached-NO added logic to transfer the damage from the player to their glider-NO added 10s cooling between slips-NO reduced slip speed by 40%INI Configurations: No changes in your file configuration are needed to continue using this mod. As you always have - It will automatically use the default values if there is no INI Config installed ---GlideSpeedINIIMulti will take a float value from .0001 to 10----It is a direct multiplier applied at the top of the Minimum and Maximum Speed Glide multipliers during slip and can drastically change your gameplay ---DuralossINIIMulti will take a float value from .0001 to 5----This direct multiplier on the amount of armor strength consumed while gliding---GlideCooldownNITimer will take float value at .0001 up to 180----It sets the number The time between the player activated and deactivated glides.--SuperTurningini will take boolean value 0 or 1----Who included this disables the trotting limit during the slip, allowing the player complete control in the air turning---DisablePostProcess will take boolean value 0 or 1----Why enabled it disables the effects of the post process on the players' screen. Allows a cleaner interface during gliding---CameraShakeINIIMulti will take a float value from .000001 to 30----It sets the number of camera shakes during the slip - the value of .000001 will be in ---GlidingSFXINIIMulti will take the float value from .0000001 to 1----It sets the volume of sound effects during the glide - a value of .000001 will actually turn it off. It doesn't disable the sounds of the activation/deactivation of the slip. Place the following lines in your GameUserSettings.ini, to customize this mod - Default values are shown: ClassicGliderGlideSpeedINIIMulti-1DuralossINIIMulti-1GlideCooldownNITimer-1SuperTurningINI 0DisablePostProcessINI-0CameraShakeINIIMulti-1GlidingFXMuliini-1 (Clean and Stackable) AND RESUBSCRIBE ON BOTH YOUR SERVER AND CLIENT MACHINES TO DOWNLOAD THE NEW FILES - THIS IS FIX ANY YOU MAY MAY ER Ellimist Enthusiasm: Classic GliderRideable GlowpetsGlowpet Remote (Vanilla)Base Size Examiner License creativcommons.org USA.
